Profile

My name is Damian Lipiński, and I'm a last-year student bachelor degree's in Social Informatics at AGH University of Science and Technology.

I learned and put into practice the whole process of the user experience path. I have practiced each of these steps: empathize, define, ideate, prototype, and test. I have also learned how to work in a team, and how to complement each other, despite having weaknesses in some areas.

EDUCATION

AGH University of Science and Technology

Social Informatics   (2018-present)
